

## **Announcement of 8th International Conference on Tissue Engineering & Regenerative Medicine**

### **Abstract**

Meetings Int is Organizing 8th International Conference on Tissue Engineering and Regenerative Medicine organized in Dubai, UAE during November 21-22, 2022. Tissue Engineering and Regenerative Medicine conference 2022 has extensive sessions in which the main Oral presentations. To share their valuable presentation on the most recent and advanced techniques, development and latest updates, a world-renowned speaker and prominent representatives from all over the world participate in the conference. On that note, International Conference on Traditional & Alternative Medicine invites all interested participants to this event. The Theme of the conference is Trends, Challenges and Leadership in Tissue Engineering and Regenerative Medicine. Scientific Sessions of Tissue Engineering and Regenerative Medicine 2022 include Stem Cell Engineering, Regenerative Medicine, and Tissue Chip for Drug Screening, Skin Tissue Engineering, Tissue repair and Rejuvenation. Tissue Engineering and Regenerative Medicine market seems to be constantly trending subject matter with Modern day Research technologies. Everyone who explores to strengthen their Knowledge and gain extended about advanced technical cleverness is to welcome present/get new ideas. We provide a good opportunity by admiring your updated Research and also by publishing it in our respective Journals. We assure our attendees return to their place with the self-belief to improve their abilities and outfitted with certified approaches to work with us. This meeting will allow the attendees to acquire these new updates and share their experiences with well recognized speakers globally. Tissue Engineering and Regenerative Medicine brings an Opportunity to attend the presentations delivered by eminent scientists, researchers, experts from all over the world and participation in sessions on specific topics on which the conference is expected to achieve progress. It brings Global networking in transferring and exchanging Ideas. Share your excitement in promoting new ideas, developments and innovations in the field of Tissue Engineering and Regenerative Medicine.
